22 January 1982

MEMORANDUM FOR: Executive Director

FROM:

[REDACTED]
Acting General Counsel

SUBJECT: Weekly OGC Report for the DCI/DDCI

ITEMS OF MAJOR INTEREST - 16-22 January 1982

Procedures Implementing Executive Order 12333. As previously reported, the draft CIA procedures implementing the new Executive Order on Intelligence Activities are being coordinated with the FBI prior to submission to the Attorney General for approval. The negotiations appear to be going well at this point [REDACTED]

[REDACTED] Formal approval has not yet been obtained from the Bureau, but we are advised that, assuming there are no unexpected delays, Director Webster will notify the DCI of his concurrence by the end of next week. Since the FBI coordination process has extended longer than previously anticipated, it now appears that Attorney General approval of CIA's procedures cannot reasonably be expected before mid to late February. [REDACTED]

Export Control Enforcement. OGC and DDI officials represented the Agency at the first meeting of the Interagency Working Group on Export Control, held last week. Also in attendance were officials from Justice, Treasury, Commerce, Defense, State and the FBI. General discussion was had regarding, among other things, ongoing programs and investigations, and enforcement priorities and capabilities. OGC notified the Group that it has prepared draft procedures on utilizing and protecting classified export control intelligence, which procedures are presently being reviewed within the Intelligence Community and which, when approved, will provide uniform guidance to export control agencies. It was agreed to reconvene the Working Group in several weeks. [REDACTED]

Jonestown. Suit was filed against the Agency under the Freedom of Information Act seeking records on the People's Temple, site of the mass suicide at Jonestown, Guyana in November 1978. A few documents were released, but most were withheld under FOIA exemptions. CIA filed a motion for summary judgment, and this week it was granted by the U.S. District Court for the District of Columbia. The case is noteworthy because, among other things, it presented a challenge, which the Court rejected, to the Agency's practice of using a cutoff date for processing FOIA requests. In addition, the Court specifically rejected Plaintiff's claims that CIA acted in bad faith in processing the request. (McGehee v. CIA).
